

NOW GETTING READY FOR THE BIG OUTING

Real Estate Association "proposes to Eclipse Its Former Records."

Reports of committees and discussion of final details of the big outing to be held at Salt Lake, June 25, occupied members of the Salt Lake Real Estate association at the special meeting Wednesday afternoon at the Commercial club. There were twenty members of the association present, with George M. Cannon presiding as chairman of the meeting. It was shown that there were already 75 prizes donated by the merchants of the city, although five blocks yet remain to be canvassed, and it is expected that by the end of the week, when the committees have finished their work, the total list of prizes will number close to 100. The total number of prizes donated last year was 512.

It is proposed to have the list of prizes ready for distribution by Saturday afternoon and the city will be canvassed thoroughly in order that everyone may know of the outing and may see what is offered to the holders of lucky tickets. Attention of the public is called to the necessity of purchasing tickets early, in order that there may be no mistake made in having the stubs turned in to the secretary of the association for the prize drawing. In the rush at the end of the day of the outing many people in the past have neglected to turn in their stubs, with the result that they were left out of the drawing. A special meeting of the association will also be held next Tuesday afternoon at the Commercial club, beginning at 12:15 o'clock.

Free Sample Helps Weak Women

So many of the ills of women are due to constipation that too much warning cannot be given them to keep the bowels well open. They have a modesty and timidity about this that is positively dangerous to their health. It is a function that is as necessary as air and food, and should not be avoided.

But it is important to know the remedy best suited to woman's needs. Cathartic pills and purgative waters are both powerful and nauseating. What is wanted is something milder and better tasting, but which at the same time is promptly effective. Dr. Caldwell's Syrup Pepsin fills these requirements and is being taken by thousands of intelligent American women. They not only use it themselves, but, having found it effective in their own case, they keep it in the house for other members of the family, for we are all called upon at some time or other to use such a remedy.

It is a safe and reliable laxative tonic and can be conveniently obtained of any druggist at fifty cents and one dollar a bottle. Before buying a bottle of your druggist the doctor invites you to make a test of it at his expense, and when you are satisfied it is what you want you can buy it in the regular way, just as thousands are doing. So, if you will send your name and address to Dr. Caldwell, he will send you a sample bottle free of charge.

Thousands of people owe the present good health of their families to the free sample bottle, for in this way they learned of an effective and inexpensive cure for constipation, indigestion, liver trouble, sick headache, sour stomach and troubles of that kind that come from a disordered stomach, liver or bowels. The family of Harry P. Becker, 108 W. Monroe street, Chicago, are among the legions who highly praise this grand laxative and are glad to publicly say: "Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For other request the doctor's address is Dr. W. B. Caldwell, R. 513 Caldwell building, Monticello, Ill."

A summer cold if neglected is just as apt to develop into bronchitis or pneumonia as at any other season. Do not neglect it. Take Foley's Honey and Tar promptly. It loosens the cough, soothes and heals the inflamed air passages, and expels the cold from the system. —Schramm-Johnson, Drugs.
